

## GfK Mobile

The GfK Group (<http://www.gfk.com>) approached us to concept, design and develop a next generation mobile framework for more than 60 websites of the group. We delivered a flexible solution that adapts to nearly all capabilities of a device individually, is highly usable on the go and also is directly connected to the main sites backend for seamless content management. View the first case with your mobile device at [gfk.mobi](http://www.gfk.mobi) (<http://www.gfk.mobi/group/index.nav.en.php>).
