

Schneider Asia Pacific

Schneider-Kreuznach, one of the global market leaders for high-performance lens systems that are known for their professional photography and motion picture projection products as well as for co-operations with Samsung, Kodak or NASA and for winning a few Oscars (<http://www.oscars.org/scitech/index.html>), approached us to rethink their online appearance. Recently we did conception, design and programming for a first small teaser site for their Chinese subsidiary (<http://www.schneider-asiapacific.com/>). The main brand's website will be launched later this year.

NEW OFFICE IN HONG KONG

01-03-2008
 Bad Kreuznach, Germany March 3, 2008 - The Schneider Group, a worldwide market leader in high-quality lenses, has positioned itself to better address the rapidly growing Asian market with the foundation of a new subsidiary in Hong Kong. [Read more](#)

THE SCHNEIDER PDF NEWSLETTERS

01-03-2008
 We welcome you to read our Schneider PDF-Newsletters for our Business Unit Industrial Optics. We got good feedback on our first newsletter in March 2007, so we decided to continue. We will update you with our corporate developments, with new product releases, upcoming trade shows and give some information about modern application examples. Free-free to download the newsletters, we will continue to upload the latest Schneider News for you here:

- 1. Schneider-Kreislaufzeit Newsletter February 2008
- 2. Schneider-Kreislaufzeit Newsletter March 2007

LENSES FOR MOTION PICTURE PROJECTION

SCHNEIDER lenses for modern multiplex theaters with large screens and medium seating satisfy the stringent requirements for imaging quality. All motion picture formats, including Cinemascope Times, are supported by lenses with freely sloped focal lengths in the CNELUX 18.9 projectors. Cine-Digital Converter Lenses allow a 50% offset with 0.8°/kips, and will function perfectly with 1.2°/kips, with no offset.
