

Invasion

This project was initially created for an article in IdN magazine (<http://www.idnproshop.com/>) and now also is exhibited in the Design Politics (<http://www.designpolitics.org/>) exhibition in the Museum of Contemporary Art of Santiago (MAC) (<http://www.mac.uchile.cl/>). The original shot was taken in Irak by an Al Jazeera photographer. We invaded that original piece and built our illustration out of the ashes from the photo, piece by piece.
